Moreover, Applicant contends that there is no motivation or incentive to reshape the Goldfarb device to fit a swage lock. The Examiner fails to identify any teaching *in the references themselves* that would motivate a combination, as is required for a proper §103 rejection.

Therefore, in light of the absence of any reference specifically teaching the limitations of claim 5 or any motivation to change the shape of the Goldfarb integrated circuit, Applicant respectfully requests that the Examiner withdraw the rejection of claim 5 or submit a second affidavit in accordance with 37 CFR §1.104(d)(2) substantiating the rejection.

Claims 8 is rejected under 35 U.S.C. § 103 as being unpatentable over Goldfarb in view of Bickford et al. (U.S. 6,506,083). Claim 18 is rejected under 35 U.S.C. § 103 as being unpatentable over Goldfarb in view of Tower (U.S. 6,111,198). Claims 8 and 18 depend from amended claim 1, and should therefore be allowable.

Conclusion

Applicant respectfully submits that all claims should now be in condition for allowance. Applicant respectfully requests that the Examiner telephone the undersigned attorney if there are unresolved matters in the present application so that the examination process can be expedited.

Respectfully submitted,

D. Delos Larson
